

Aidan Henning

Software Developer

(571) 488-7430 | henningaidan@gmail.com | Santa Monica, CA | linkedin.com/in/aidanhenning | github.com/aidanhenning

PROFESSIONAL SUMMARY

Mission-driven developer with hands-on experience delivering scalable, full-stack web applications (JavaScript, React, Node.js, Express, PostgreSQL). Known for quickly mastering new technologies and translating real-world needs into robust software solutions. Adapted analytical, problem-solving, and client-facing skills from property management to software development, with a passion for building tools that advance complex missions.

TECHNICAL SKILLS

Languages/Frameworks: JavaScript, React, Node.js, Express.js, PostgreSQL, HTML, CSS, Tailwindcss, MaterialUI
Tooling/DevOps: Git, Netlify, Cloudinary

Certifications: Web Development Certification, Fullstack Academy (2025)

TECHNICAL PROJECTS

Portfolio Site | Frontend Developer | August 2025 | [Link](#)

- Developed a responsive, single-page personal portfolio website using HTML, CSS, and JavaScript (React) to showcase software development projects and technical skills
- Implemented clean, accessible UI/UX design to highlight project details, GitHub repositories, and contact information.
- Deployed the site using Netlify

Capstone Property Management App | Fullstack Developer | June 2025 | [Link](#)

- Built a full-stack rental management platform using the PERN stack (PostgreSQL, Express, React, Node.js) with JWT-based authentication and role-based access control.
- Integrated Stripe API for secure rent payments and Cloudinary for media uploads; deployed frontend on Netlify and backend on Render
- Designed dual interfaces for property managers and residents to handle maintenance requests, rent payments, and community updates.
- Focused on usability and modular design to ensure scalability and a smooth user experience across devices.

PROFESSIONAL EXPERIENCE

Leasing Professional | Greystar | Santa Monica CA

Jul 2023 - Jan 2025

- Qualified prospects, processed applications, prepared lease agreements and move-in packages, and ensured a smooth resident transition
- Analyzed current market conditions that may impact the community's occupancy and lease results
- Designed and executed marketing activities that drove traffic to the community and increased ratings on google, apartments.com, zillow.com, and several other high impact sites
- Performed audits ensuring proper rent, fees, and documentation for each resident
- Prepared daily and weekly reports for owners, asset managers, and other stakeholders

EDUCATION

Fullstack Academy Web Development Bootcamp

Apr 2025 - Jun 2025

Software Engineering Certificate

Immersive software engineering coding bootcamp focused on mastering HTML, CSS, and JavaScript foundations, front- and back-end development, and databases.

Virginia Tech

Bachelor of Science in Real Estate

Aug 2020 - May 2023
